

# Outdoor Pool and Terrace Addition to Single Family Home Solebury, Pennsylvania

## Project Overview

This multi-level stone terrace addition project included new walkways, retaining walls, gas fire pit, spa, and multiple entertainment areas constructed around a pool. Exterior improvements included a new paver patio and tiered walkways attached to the existing rear entrance and professionally designed garden areas.

Pisano Development Group provided survey and site layout of the project, structural design of the retaining walls and architectural coordination and construction administration services.

- Construction cost \$75,000
